

Rivers and Lakes

Are there any hot springs in PNG?

Yes there are many. Some are located at Deidei on Fergusson Island in Milne Bay province. The springs are located on the eastern side of the island. The Melanesian Tourists Services Melanesian Discoverer makes regular stops at the island while doing the Port Moresby - Trobriand Island - Madang tours. Visitors can watch boiling water spout up to 20 metres then splash back down onto the concrete like floor.

Unique solution ID: #1769
